

Behind the Scenes

Vanessa Purcell is Heron's highly efficient Administration Officer who keeps the wheels oiled and turning and the suppliers happy by paying their accounts on time. Vanessa is also a Kalgoorlie girl with her finger on the pulse and in her spare time helps run the Goldfields Child Care Centre. She is pictured here with her daughter Poppie.

Sarah Calvert by day is Heron's Company Secretary, dealing with all the complex financial & legal issues which keep Heron afloat. All tasks are dealt with a calm efficient dedication and a healthy sense of humour. Her secret is her passion for riding her BMW 1200 GS road bike which blows away the cobwebs and keeps her sane.

Tracy Browning is Heron's Public Relations and Land Management Officer. It is her task to keep shareholders up-to-date with information and assists in keeping the tenements in good stead. Tracy is also a keen Hash House Harrier and recently returned from an International event with 6,000 other hashers from around the world gathering in Chiang Mai, Thailand. She is pictured above with some Thai cows on one of the many run sites.

Peter Taylor, looking very dapper has been working at Heron for coming up to 2 years as a senior geologist. With his wife, Wendy, they have three children aged 18, 16 and 14 which has kept them both fairly busy. Although not a great one for hobbies; at the moment his spare time is occupied in gently restoring the rather old railway house they are living in.

John Briant supervises our operations on the field and keeps the fieldies busy. During his spare time he pursues his love of motor cycles by restoring them and has also done up a few houses in his time. His favourite bike is a customised 1978 FLH Harley Davidson
